Importance: High

Hi folks, Just got off the phone with Carrie. She said she needed 15 minutes tops and would like to touch on the following topics:

1. The governor's letter specifically thanks Jared for his visit and for bringing people together. What did he do while in Lyon County, what did he say? How did he bring people together? What was the feedback from stakeholders?
2. What testing of soils has been done? What is the timing on further testing? Governor's letter expresses frustration in the amount of time it's taken, how will listing help the timeline?
3. How are we going to get BP to do their part? Does listing provide another incentive to do the work?

The soil sample questions and timing of the cleanup are what I think he'll need some additional support from SF.
